

NO CHANGES MADE
IN POOLING BILLREPORTED THIS MORNING
WITHOUT AMENDMENT.

Senator Sherman Predicts the Reaching of Financial Legislation During This Session—Hawaiian Matter Caused Debate—Germans War On American Cattle.

WASHINGTON, Jan. 22. The pooling bill was reported this morning without amendment. Senator Sherman, in an interview, says that there will be financial legislation of some sort enacted at this session. An important meeting of the house appropriation committee was held yesterday, in which Secretary Carlisle took part at the request of Chairman Sayers. The conference was over the adoption of a policy by which the secretary hopes to put into circulation an increased volume of silver certificates of small denominations in place of treasury notes. The committee decided to strike from the sundry civil appropriation bill a stipulation that for several years has been added to the item providing for printing treasury notes to replace those received at the treasury. Secretary Carlisle stated that it was his desire to get more silver certificates of small denomination into the hands of the people, but explained that other notes occupied the field and crowded them out.

Seven hundred thousand dollars in gold was yesterday withdrawn from the New York subtreasury, \$600,000 of it being for export. This leaves the true amount of the gold reserve \$69,965,117.

Two financial bills were introduced yesterday by Representative Warner (N. Y.), a member of the banking committee. One, "To maintain the credit of the United States," gives the secretary of the treasury discretionary authority to issue bonds in denominations of \$50 and multiples thereof, payable in coin at the option of the United States after three years and due in ten years with interest at 3 per cent, providing the total outstanding issues shall not at any time exceed \$250,000,000. Also authorizing the appropriation of surplus revenue to the redemption of these bonds upon the most advantageous terms he can secure. The second bill, "To reduce the demand obligations of the United States and for other purposes," proposes to repeal the act of 1878 forbidding the further retirement of legal tender notes, and provides that all hereafter received, except those issued under the act of 1890, shall be destroyed. To carry out the redemption of notes the secretary is authorized to sell no bonds at less than par similar to those described in the act of 1890, except that interest may be fixed at the most advantageous rate not exceeding 3 per cent. Also to repeal the provision of the banking act of 1882 that stipulates that no national bank that makes a deposit of lawful money to withdraw its circulating notes shall be entitled to receive any increase of its circulation for the period of six months.

HAWAII MATTERS DISCUSSED.

One of the Resolutions Offered Resulted In An Animated Debate.

WASHINGTON, Jan. 22.—Minister Thurston of Hawaii occupied a front seat in the diplomatic galleries of the senate when the session opened yesterday.

Mr. Lodge speedily brought forward the Hawaiian question by presenting the following:

"Resolved, That the senate cordially approve the dispatch of a war ship to the Sandwich Islands Saturday last, and is of opinion that an American man-of-war should be kept at Honolulu." He also wants a cable constructed, and that immediate steps be taken to secure possession of the Sandwich Islands by their annexation to the United States.

Mr. Lodge asked immediate consideration for the resolution.

"Let it go over," interposed Mr. Blackburn.

The presiding officer construed this as an objection and under the rules the resolution went over until to-day.

The Hawaiian subject was again brought to the front by Mr. Frye, who called up his resolution presented Saturday, expressing the profound regret of the senate at the latest effort to restore the queen. A sharp debate was at once commenced, but the whole matter finally went over.

Germany's War on American Cattle.

WASHINGTON, Jan. 22.—The latest restriction imposed by Germany on our stock exports through prohibition of shipment from England is regarded here as merely another attempt on the part of the imperial leaders to conciliate the agrarian party who are tingling under the recent sugar legislation. It is generally understood that England does not produce any considerable amount of stock for shipment to other countries. It is believed the action of the Hamburg senate was the result of a demand by the imperial authorities.

THEIR FRIENDS DISCOURAGED.

Little Chance for the Nicaragua Canal and Free Shipping Bills.

WASHINGTON, Jan. 22.—Friends of the Nicaragua canal bill and the free shipping bill are greatly discouraged at the outlook for obtaining a hearing in the house for their measures, and

are about ready to concede that nothing will be done by this congress. Speaker Crisp said Saturday he thought it rather improbable that the committee on rules would grant time for them, and his statement may be taken as practically conclusive.

The Nicaragua canal bill reported to the house differs from Senator Morgan's plan, which has been debated in the senate. Representative Mallory has charge of it, and says he has abandoned hope, though he retains his belief that it could command a majority if the rules committee would bring it to a vote.

For Two Public Buildings.

WASHINGTON, Jan. 22.—The house of representatives yesterday authorized the erection of a new public building on the old site at a cost of \$4,000,000, the bill passing the house by the vote of 191 to 51. Among the other public buildings passed was one for South Omaha, Neb., the appropriation being \$200,000.

Sugar Trust Decision.

WASHINGTON, Jan. 22.—The Supreme court of the United States rendered an opinion in the sugar trust case of the United States vs. E. C. Knight and others, involving the validity and constitutionality of the Sherman anti-trust law. The decision holds the law to be inapplicable to the case in hand and confirms the opinion of the Circuit court.

Debs Can Get Out.

WASHINGTON, Jan. 22.—The Supreme court of the United States yesterday ordered that Eugene V. Debs and his associates in jail in Illinois be admitted to bail in the sum of \$2,000 each. The hearing to show cause is to be had on the 25th of March.

THE INDIANA SENATE.

Talk Against the Doorkeeper Does Not Result in Action.

INDIANAPOLIS, Ind., Jan. 22.—The talk of starting an investigation of the office of doorkeeper of the senate had no result when the senate met yesterday and it begins to look as if no investigation would take place. The senate passed Senator Haggard's resolution regarding the proposed ship canal from Lake Michigan to the head of navigation on the Wabash and a committee was appointed to look into the feasibility of the project. If it finds the ship canal can be made without too great cost to the state a bill will be introduced. Representative McGregor introduced a bill to abolish convict labor and providing for an appropriation of \$100,000 to carry out the scheme of making the penitentiaries self sustaining.

PUT BEHIND THE BARS.

Alleged Lynchers of Barrett Scott Held on Charge of Murder.

O'NEILL, Neb., Jan. 22.—Mose Elliott, Fred Harris, Mert Roy, and Mulligan were last night arrested and put in jail charged with murdering Barrett Scott. They are believed to be members of the vigilance committee of farmers which is charged with lynching Scott. Other warrants are out. It is reported one of the vigilantes has turned state's evidence. The searching parties had previously explored a considerable portion of the river where the body was found. They had dragged the bottom within four feet of the spot. The successful posse went almost to the exact spot. It is believed one or two knew pretty nearly where to look for the body before they left O'Neill.

Nelson Claims Eighty-Eight Votes.

ST. PAUL, Minn., Jan. 22.—The Nelson men say they will show up with more than seventy votes in the ballot for United States senator in the legislature to-day. Sixty Nelson caucus votes are counted on to begin with, and with them it is affirmed there will be half a dozen republicans from the Washburn column, making sixty-six. Ten democrats, says rumor, are depended on for Nelson, making seventy-six, and twelve populists, giving a total of eighty-eight, or three more than the necessary majority.

Railroad Men Are Laid Off.

OMAHA, Neb., Jan. 22.—Five hundred employees of the Union Pacific, between Council Bluffs and Cheyenne, got their time checks last night. Out of the number laid off 360 are at the Omaha shops. Master Mechanic Manning says the men will be put back as business will warrant. The men remaining in the shops continue to work eight hours a day five days a week. The Missouri Pacific also began to retrench yesterday. Half the men in its Sedalia shops are to work alternate weeks.

THE DAY WAS QUIET
DOWN IN BROOKLYNLINEMEN ALL WENT OUT
THIS MORNING.

There Has Been But Few Disturbances and They Were of a Minor Character—Firing By the Soldiers Has Had Rather a Quieting Effect.

BROOKLYN, Jan. 22.—The linemen of the street railway struck this morning but there were only a few disturbances. The firing yesterday had a good effect, although they simply fired over the heads of the strikers and their sympathizers and sent the mob scattering. As far as known no one was injured in the volley, though many people were injured at various points during the day.

The Seventh regiment's Gates avenue experience was supplemented with another conflict at Halsey street and Howard avenue. The policemen withdrew for the night at 8 o'clock, when the cars stopped running. Col. Appleton immediately placed a dead line. A crowd gathered at Howard avenue, jeered at the soldiers, and finally one of them fired a shot. Capt. Palmer, in charge of the picked men, promptly gave an order to fire. Many of the crowd fell and it is believed that quite a number were injured. Capt. Palmer said he saw several men fall.

A little later another mob gathered at the Halsey street end of the depot. Col. Appleton addressed the mob. He asked them to leave peaceably and go to their homes. The mob showed no disposition to disperse, and a company of soldiers charged upon it with fixed bayonets. The crowd scattered in all directions. The prospect for to-day is that the linemen, of whom there are 300, may join their fellows now out. Such an extension of the strike would leave the companies temporarily at the mercy of the wire cutters.

The first car yesterday was started about 5 o'clock. It was occupied by railroad officials, reporters, and non-union men, and was guarded by the three militia companies marching in front. The car was flanked by fifty policemen and followed by twenty-five mounted policemen. Crowds formed in the streets in a short time. Every one was driven before the bayonets of the militiamen. The latter ordered the storekeepers to lock their stores and all the housekeepers were directed to lock and bar their doors.

The car had not proceeded far before it was stopped by obstructions on the track, and after the police had vainly tried to disperse the mob the militiamen were ordered to shoot, but when the word to fire was not given the mob returned to the assault. Bricks and stones were thrown repeatedly at the stalled car, and the men inside crawled under the seats to avoid injury.

The word "fire" was finally given by the captain and immediately 100 rifles were brought into position. A second and then a belching fire was poured from the muzzles of the guns. But the militiamen had evidently been ordered to shoot over the heads of the men, because no one of the assailants were injured. The crowd of 2,000 people fell back and all expected to see dead and dying around them. They retreated, and men women and children were trampled upon. The car then proceeded on its way to the station at Ralph avenue.

If anything, the situation in Brooklyn was complicated by the calling out of the state troops, who do not carry the respect of the community even to the extent that the police do, and Mayor Schieren was roundly denounced on all sides to-day for leading Kings county with an expenditure of \$12,000 a day to keep up this empty and riot provoking show of force. Some went so far as to say there would never have been any demonstrations if the state troops had not been called out and asserted the police were amply able to control the strikers.

The New York regiments marched for the scene of operations between 5 and 6 o'clock in the morning and by 9 o'clock had been disposed about the city in the most important positions.

The headquarters of the National guard is on the top floor of the Brooklyn Hall of Records. Brigadier-General James McLeer is still in command. The boasts made by Presidents Norton and Lewis of the Atlantic avenue and Brooklyn City roads, respectively, that they could, if properly protected, run every car on their lines have not been made good. The protection they asked for has been given; the cars they promised have not been run. The presidents now admit what has been suspected, that they have not succeeded in getting enough men to operate the systems. There was a report at military headquarters at midnight that it had been decided if the Brooklyn cars were not running by 8 o'clock this morning to send the First brigade back to New York. The city officials will then take charge of the roads on the ground that the companies have been unable to run their cars, although given the protection they wanted. Business men all over the city are contributing to the strike cause. The board of aldermen of Brooklyn is as a unit in sympathy with the strikers.

The whole police force of New York excepting those members of the force who are sick, and those specially detailed to special duty were ordered by Supt. Byrnes to duty pending developments in Brooklyn.

FROM A BLAZING INN
THEY RAN TO FREEZEUNCLAD HOTEL GUESTS DRIVEN
INTO A BLIZZARD.

Early Morning Fire in Wausau Springs Up So Rapidly That Little Warning Is Given To Those In The Building—Fishermen Escape Death.

WAUSAU, Jan. 22.—Madden's hotel, near the St. Paul depot, burned early this morning and twenty guests were driven out into the blizzard with nothing on but their night clothes. Immediate flight was all that saved their lives and several were badly frosted before they found shelter. Firemen had hard work to save the two hotels and the business houses that stood close by. She had spent \$300, therefore, in needless litigation.

AN OLD MAN'S HARD FIGHT.

Farmer Patton Living Near El Paso, Ill., Has a Desperate Battle with Burglars.

EL PASO, Ill., Jan. 22.—Last night about 11 o'clock four persons entered the home of E. S. Patton, a farmer, aged 70 years, residing four miles west of this city, and stole a wallet containing over \$900. Patton was awakened by a flash of light in the stairway. He grabbed his shotgun and went downstairs. One of the burglars shot at him and he in return snapped both barrels of his gun at him, but the cartridges failed to act. The burglar backed out and Patton slammed the door. Just then another member of the gang entered and drew a revolver. Patton used his shotgun as a club, knocking the revolver from the burglar's hand and throwing the intruder to the floor.

At this point the burglar who first entered fired three shots through the door and one of the bullets entered Patton's side, making an ugly flesh wound. While Patton was having the trouble with two of the burglars two others went upstairs and, taking the money from under Patton's pillow, escaped, followed by the two who used firearms.

President Diaz was to have gone on a hunting trip yesterday, but postponed it, as is generally thought, on account of the serious situation with Guatemala. JAPS LAND TROOPS AT CHEFOO.

Story of the Victory Is Confirmed by Minister Denby at Peking.

WASHINGTON, Jan. 22.—Secretary Gresham yesterday received two cablegrams from United States Minister Denby at Peking confirming the reports of the landing of the Japanese troops near Chefoo. The first says Teng Chang Fu had been bombarded by three Japanese ships and the American missionaries had left on the Yorktown. The second, under date of Jan. 21, says it is reported that Teng Chang Fu, fifty miles north of Chefoo, had been bombarded by the Japanese, who had subsequently effected a landing on the Shan Tung promontory. This places the Japanese in a position between Peking on the west and the great fortress of Wei-Hai-Wei on the east. It is believed a movement will be made by land and sea upon the latter place, just as at Port Arthur.

JUDGE RICKS TELLS
ABOUT THOSE FEESAPPEARED BEFORE THE JUDICIARY
COMMITTEE TODAY.

Says That He Never Approved of the Acts of His Clerk While He Was Acting As Judge—Fees Were Due Him Before His Election.

WASHINGTON, Jan. 22.—Judge Ricks appeared before the house judiciary committee this morning, and went over the charges against him. He explained them, and said that he had never approved of the acts of his clerk while acting as judge, and in answer to questions said:

"The substance of the charge made is that I have retained fees, claimed by me by virtue of my former clerkship, which I should have paid over to the United States. There is absolutely no truth in this charge. The whole accusation embraces three items aggregating some \$766, and in my reports as clerk for the year 1885 and the first half of 1889 I charged myself with this very amount as part of my compensation as clerk, the charge being made upon account of records in what are known as the Birdsall cases. The actual making in all clerks' offices is always many months behind the disposal of cases, and in this way it happened that the record in these cases in which I had so charged myself with \$766 before actually receiving the same were not completed until after my appointment as judge. When the fees in the case were paid they amounted to \$1,792."

The company will proceed at once to pump out the shaft of the Co-operative Coal company, abandoned eight years ago on account of excessive inflow of water, and in which a fine supply of good coal was found. There is but one shaft in operation here at present, that of the McLean County Coal company.

STORM IN THE SIERRAS.

Snow Banked Up Thirty Feet High Beside the Railroad Tracks.

SACRAMENTO, Cal., Jan. 22.—Another storm is raging in the mountains, and, although there is more snow on the ground than there has been for five years, it is rapidly growing deeper. The storm began yesterday morning and continued without ceasing all day. The wind is howling through the mountains, and the snow is falling thick and faster than at any time during the last twenty-four hours. Owing to the violence of the storm and the possibility of a tie-up at any moment, no more freight will be moved until the storm abates. Passenger trains will keep moving as long as possible. The snow is banked up alongside of the track in places nearly thirty feet, and the rotary plows are beginning to work with difficulty in these places. Hundreds of men are employed in shoveling the snow so as to widen the space between the banks. As it is now the snow scrapes the side of the cars, and as the plows can not work to advantage the shovellers work in tiers grading the banks.

est Daughter—Adventists Made
Many Conversions.

A number of Indians are in camp
near Busseyville.

The Emerald Grove Congregational
society held their annual meeting
January 18. Fifty members answered
roll call and dinner was served by the
ladies. About \$1,400 has been raised
for improvements, lecture course, etc.
Many other items of interest will be
found in the correspondence that fol-
lows.

David Acheson rescued his child
from what looked like death at their
home in Magnolia the other day.
When he entered the house he found
the child's clothing wrapped in flames.
He smothered the fire, but not a
moment too soon.

Twenty-two conversions are the
result of the Adventists revival meet-
ings at Magnolia and the Methodists
have taken up the work and are now
holding protracted meetings too.

The C. W. B. M. of Footville gave a
very pleasant entertainment at the
Disciple church. The residence of
Daniel Silverthorn narrowly escaped
destruction by fire and no one knows
how it ignited.

Thomas Davidson of Milton cele-
brated his eighty-ninth birthday the
other day and a large assemblage of
relatives and friends assisted him.

cave on Friday with the finest ice
yet brought in the village, it being
furnished by F. M. Dann just west of
town. Abe Hetrick and family are
talking of moving to Colorado.
The residence of Daniel Silverthorn
came very near being consumed by
fire on Sunday last. The cause of
the fire is still a mystery. It first
started in the organ. Mrs. Gooch had
been playing on the instrument only
a short time before. It is thought
that a mouse had carried a match in
the organ. G. D. Silverthorn is able
to be out again after a short siege
of gripp. John Fox has a choice
yard of buff cochin chickens which he
prizes very highly. Miss Nellie Owen,
formerly of this place, but now of

were S. H. Joiner, La Prairie; Frank
Mouat, Harmony and W. J. Jones.

J. C. Scott and E. H. Ransom re-
turned from California. They came
over the "Sunset" route via New Or-
leans and both look as though they
had fared on the fat of the land and had a
good time. In looking for warm
wear for feet or hands remember
Gillies & Jones' prices are interesting.
News reached here last week from
Ansen, Wis., telling of the death of
James Guillian, who moved from here
last fall. Mr. Guillian was well known
in this vicinity, having resided in this
place about ten years. John Cam-
mings is very low, and his death is ex-
pected every day. Messrs. Doubleday,
Kemp and Jones visited Lake Keshko-
kong last Thursday, and brought back
a string of eighty fish. The ice house

filled last week with a superior qual-
ity of ice. A. J. Davis, one of our

last week, and upon his returning it
was made known that he had taken
unto himself a wife. Mr. and Mrs.
Davis have the best wishes of the com-
munity. James Lamb returned from
Iowa Saturday with some stock
for his farm near the village.

arranged by the Y. P. S. C. E. will
occur on Friday evening January 25.

prospects. The church, christian en-
deavor and Sunday school have raised
for expenses, improvements, lecture
and entertainment course and outside
benevolences about \$1400. A heavy
rain fell Sunday night, accompanied
by an unusual amount of thunder and
lightning. Monday morning the
April like weather took a chill. The
mercury dropped from 40 degrees
above to 14 above in twelve hours.

A MERRY WEEK AT MILTON TOWN

Thomas Davidson's Eighty-Ninth Birthday
Marked.

MILTON, Jan. 21.—Last Sunday the
children and relatives of Thomas
Davidson celebrated the eighty-ninth
birthday of the old gentleman at his
home in this village. It was a pleas-
ant family reunion and an enjoyable
event for all concerned. "Uncle
Tom," as he is universally known,
enjoys remarkable good health for a
man of his age. His mental faculties
are unimpaired, and were it not for
his inability to get about is to all ap-
pearances as well and hearty as he
was five years ago. Those present
were Mrs. George Algard and Mrs.
W. Webster of Oregon; William
Bowers, wife, son and daughter of
Lima; N. Davidson, W. H. Davidson,
wife and daughter, J. E. David-
son, wife, daughter and three
sons, Mrs. M. J. Davidson,
Miss A. A. Davidson, F. H. Gifford
wife and son all of this village. The
damp weather early in the week en-
abled tobacco growers to take down
their crops and stripping is now well
under way. The article in the Daily
Recorder of Saturday last, touching on
the morality of this village, is any-
thing but creditable to the writer and
the journal that gives it space. Were
its truthfulness admitted no good can
result from the publication of such
filth. Prof. Lummis of Lawrence Uni-
versity, lectures this evening at the
Methodist church. Nearly fifteen
hundred dollars remains unpaid on
Treasurer Tracy's tax roll at the time
we write which indicates that coin of
the realm is not plentiful here. Feth-
erston & Brother shipped four car
loads of corn and barley last week.
The rabbit hunter and his keen eyed
ferret are abroad in the land, and the
poor "cottontail" as he pops out of
his burrow with the ferret at his
heels, finds himself bagged. Colin Rice
of Rockford, has been visiting
his Milton relatives for a few
days. M. L. Ferris of Portland, Ind.,
spent a part of Friday and Saturday
in the village. He is a partner in the
Creamery Package Co. of Chicago, and
has charge of their factory at Port-
land. Mr. Ferris was born here and
for many years made it his home and
his many friends and acquaintances
are glad of the opportunity to meet
him, but his visits are too much like
those of angels "few and far be-
tween." C. S. Swan has been re-es-
tablished as baggage master
by the railroad company,
which is a wise proceeding. W. E.
Hogmire, of Milwaukee, general agent
of the Page Woven Wire fencing, did
business here Friday, with the local
agent, M. C. Whitford. Charley Bur-
ton, of Delavan, has been in the city
several days visiting classmates and
acquaintances. Frank Harvey of
Waukesha, was in town Friday. He
has sold his house and lot in this
place to W. H. McNitt. A. O. Gifford,
Sr., has been confined to the house
for a week past with a lame back, but
is able to be about again now.

INDIAN FORD INDIAN SAW INDIANS

Aboriginal Healer Says There Are Some
at Busseyville—Other Notes.

INDIAN FORD, Jan. 22.—Dr. Redwolf
made a business trip to Busseyville one
day last week, and reports a number
of Indians in camp near there. C. S.
Thomas and Will Harton are doing a
good business sawing wood. Mrs. C.
W. Jackson, E. I. Rogers, Wallace
Hallett, Nellie Thomas and Pearl John-
son, who have been on the sick list,
are reported better. J. C. Hurd made
a business trip to Edgerton last week.
John Scarelliff went to Edgerton on
business one day last week. Charles
Hallett is kept busy these days, shoe-
ing horses. Mrs. George Lackner made
Mrs. L. Lackner a very pleasant visit
last week. The population of the
Ford has been increased by Dave Al-
verson and family. D. M. Walrath has
the ice drawn to fill his ice house. Mr.
and Mrs. R. Call spent Sunday after-
noon with D. N. Walrath's people.
Miss Dane, our school teacher, spent
Sunday in Janesville. It is reported
that Dave Alverson will run a milk
route from the Ford to Russell's Cor-
ners this winter and next summer.

MAGNOLIA CHILD ESCAPES DEATH

Father Came in Time to Smother Her
Flaming Clothes.

MAGNOLIA, Jan. 22.—David Acheson's
youngest girl had a narrow escape
from being burned to death last week,
her father arriving just in time to ex-
tinguish the flames in her clothes. The
Advents closed their meetings last
Thursday evening with twenty-two
conversions, and the Methodists com-
menced a protracted meeting Sunday
evening, which will hold for some time
to come. Mrs. Davis will conduct the
services. She is a splendid speaker, an
earnest worker, and we look for much
good to be done here yet. A very large
crowd attended the Modern Woodmen's
supper Friday night. George Bahr is
very sick. The Literary passed off all
right last Friday evening, and a good
programme was enjoyed by all.

With each succeeding snowflake
that was whirled about by the howl-
ing gale last night, the railroad man's
chances of going to heaven grew
smaller and smaller and beautifully
less. They knew that delays and shov-
els would go hand in hand today, and
some of them swore. Whether the
method adopted for freeing their minds
was proper or not, may be open to de-
bate, but all will admit that their pre-
diction as to what would happen, was
true.
For two hours this morning the bus
drivers and hotel runners knocked
their heels against the side of the pa-
latial C. & N. W. depot or warmed
their shins beside the stove in the
elegantly furnished waiting room.
The vigil began at 6:30 and was sup-
posed to terminate when the train
limited from the north came in five
minutes later. They waited until
8:30 and then went home. The train
was making but slow headway
through the drifts did not arrive in
Janesville until 11:15. It is not often
that this train is delayed seriously as
the heavy engine will plow through
banks with ease that would block a
lighter machine.
Shortly after the limited got in Su-
perintendent Moulton received word
that three freight trains were blocked
in deep banks near Lyman, the first
station north of Watertown. The big
snow plow was at once prepared for
service and pushed by engine 380 and
in charge of the superintendent and
Conductor Frank Rusch left for the
north at 11:20 to clear the road and
free the imprisoned freights. The
noon passenger was also delayed and
aboard it was the Chicago and Mil-
waukee mail and morning papers.
The storm was an unusually mean
one for the railroads as the snow was
fine and mealy and sifted into every
crevice and crack. If no more snow
comes and the wind goes down there
will be no more trouble.

BRIEF LOCAL NOTES.

This evening the Concordia society
will give one of their popular social
invitation parties at their hall. That
it will be an enjoyable affair there is
no doubt, as that is true of all the
parties given by this society. Those
having received invitations to previous
parties will be welcome. Smith's or-
chestra will furnish the music.

WITH our cash or easy payment sys-
tem we make it possible for every fam-
ily in the city and country to have just
what furniture they need and pay for
it as they choose. Our main object is
to clean our floors as near as possible
before March 1. Frank D. Kimball.

THERE is a treat in store for those
who attend the Barns anniversary at
the Light Infantry armory next Fri-
day evening. It is one of the red let-
ter events of the year and the usual
large crowd is predicted. The public
is cordially invited.

No difference where you look or
what you say, its an utter impossi-
bility to find a suit of clothes for \$14, or
an overcoat for \$12-\$20, for both to
equal that suit and overcoat we sell
for \$13. T. J. Ziegler.

It requires plenty of cash to con-
duct a credit business as we are doing.
We buy for cash, and get the lowest
figures, so as to be able to give you
spot cash prices on easy payments.

Reading, Waiting, Buying.

The model homes for working men
which were shown at the World's
Fair contained many comforts and
conveniences that royal Ferdinand and
Isabella were keeping house without
on the day when they entertained
Christopher Columbus. The plain
millions of American people are even
reading, ever wanting ever buy-
ing people, and the person who re-
alized these three facts will see the
reasonableness of plain, every day ad-
vertising such as we have today.
BORT, BAILEY & Co.

AN AWFUL PREDICAMENT.

She Don't Know How She Got
Into It.

But She Does Know Just How
She Got Out.

And That Is the Most Curious and In-
teresting Part Of It.

She never could tell how she got
into the terrible predicament.
No one can ever tell exactly how
trouble comes about.

But with Shakespeare we realize:
"One who doth tread upon another's heel,
So fast they follow."

And Mrs. Eva Dyer, of 46 South Or-
ange Ave., Newark, N. J., who tells
the following interesting story, indeed,
felt the truth of this.

"About five years ago," she began,
"I was taken suddenly sick, and I con-
tinued to grow worse until I was un-
able to do any work at all. My nerves
got so bad that I would have spasms
nearly every day, and I would feel so
I was dying in every one I had."

"My stomach is in such a weak con-
dition that it would not maintain the
slightest food, and altogether I was so
weak and run down that I was obliged
to remain in bed the greater part of
the time."

"I tried doctor after doctor, but
their medicine did me no good, as I
was ready to give up hopes of
ever getting better, when a friend
advised me to try Dr. Greene's Nervura
blood and nerve remedy."

"So I resolved to try it, and have
found it a success. The first bottle I
thought I felt some better, and so I
continued taking it. I have now taken
seven bottles, and I feel that I am
cured."

"I don't have any more spasms and
my stomach is so I can eat anything
without its hurting me. I am no
longer weak or nervous, and I am
able to do my own work and feel like
a new woman."

"I advise everyone who is sick or
ailing, to try Dr. Greene's Nervura
blood and nerve remedy, and be con-
vinced of its wonderful power to cure,
as I have been."

Thousands of people are today in a
predicament more or less like that of
Mrs. Dyer. They may not be so seri-
ously sick as she was, but they may
come even to a worse condition, if
they allow their present ailments and
weakness to run on. Nine times
out of ten the great prostrations of
health, the breaking down of mind
and body, the utter wreck and shat-
tering of those delicate fibers which
send weakness and despair throbbing
and shivering through unstrung
nerves, are traceable directly to the
neglect of the first sight and appar-
ently trivial symptoms.

If you would save yourselves from
the black night of sickness, the hope-
lessness of despair, do not allow the
first symptoms, the dizzy, aching head
the nervousness, the restlessness, the
sleeplessness, the utter weakness of
weary days and hours, to continue for
one moment when you know that Dr.
Greene's Nervura blood and nerve
remedy will surely cure you—will
surely make you strong and well.

Physicians recommend it every-
where. Dr. Greene, of 35 West 14th,
St., New York City, its discoverer, is
our most successful physician in cur-
ing nervous and chronic diseases, and
he tells you to use it, that it will
make you well. You can consult him
free, personally or by letter.

Is gathered by that tremendously destruc-

ter's Stomach Bitters, which will check its pro-
gress and avert disaster. Chills and fever, bil-
ious remittent, dumb ague and ague cake are
promptly relieved and ultimately cured by this
genuine specific, which is also a comprehensive
family medicine, speedily useful in case of dys-
pepsia, biliousness, constipation, sick headache,
nervousness, rheumatism and neuralgia.
Against the hurtful effects of sudden changes of

other influence prejudicial to health, it is a
most trustworthy safeguard. It fortifies the
system against disease, promotes appetite and

RECEIPTS FOR THE LAST YEAR
IN TABULAR FORM.

Post Office Does a Very Good Business
For a Concern That Doesn't Adver-
tise—Figures Furnished By Mr.
Wilson For the Year Just
Ended.

Postmaster A. O. Wilson's report
for the last quarter is interesting,
showing as it does the amounts re-
ceived for stamps and box rent during
the year. The figures follow.

	Stamp ps.	Box Rent.
Jan. to Mar. 31, 1894.....	\$2056 98	\$213 00
April 1 to June 30, 1894.....	5216 47	226 90
July 1 to Sept. 30, 1894.....	4668 17	216 46
Oct. 1 to Dec. 31, 1894.....	5816 98	201 75

This makes the total income for
1894 \$22,516.71. This cannot be
taken as the annual report in a strict
sense. The fiscal year in postal mat-
ters ends January 30. A year ago the
gross receipts for twelve months were
\$22,701.59. At that time the salary
was \$2,600 and the allowance for
clerk hire \$2,650. The allowance is
now \$3,100. Rent, light and fuel
cost \$1365 31, other incidental ex-
penses \$39.04 and free delivery
\$525.86. The total expenses were
\$11,907.21 and the net revenue
\$10,794.38. This made the percentage
of expenses to gross revenue 52. In
different offices of the state the per-
centage ranges from 22 to 81.

dred farmers will attend a convention

MUCH TROUBLE AHEAD.

President Faure has no easy task. If he undertakes to continue the policy of his predecessor, which it is to be expected he will do in part at least, the new administration will begin with its assumption of power. It cannot be assumed, therefore, that with the election of a new president the political crisis is at an end. There remains a great deal of dissatisfaction and the growing and aggressive socialist element is a factor capable of making no little disturbance and trouble. The great question now to be dealt with is the constitutional one the separation of powers, and there may be several crises before this is settled.

HARD TIMES ALL AROUND.

Word comes from Washington that never in the history of that city has there been so much distress among the poor there as is found today. This is of course greatly to be deplored, but it goes to prove that the present unfortunate condition of the lower classes in many of our cities is by no means local. Washington is really a southern city, and if distress exists there, it is also to be found in other southern cities. The fact of poverty in the northern cities is quite generally known. The demand for charity is peculiarly heavy this winter, and it is not confined to any one locality or group of localities.

The Hibernian gift for courteous speech was seldom better displayed than by a certain Irish boarder. His landlady, a "pleasant-spoken" body, had poured him a cup of tea, and presently inquired if it was all right.

"It is just to my taste, Mrs. Hallahan," said the boarder—"wake and could, just as I like it."

The astonished voter. "You are charged with having voted five times in one day," said the judge, sternly.

"I am charged, am I?" repeated the prisoner. "That's mighty odd. I expected to be paid for it."—N. Y. Sun.

Putting an end to the argument. She (a woman's rights woman)—Do you believe that woman should have the right of being the equal of man?

Thanksgiving. Now comes the merry turkey time. The hall-room boarder's gay; For once, at least, he'll have a feast—Oh, glad Thanksgiving day!

MRS. McLEAN'S DEATH CAME SUDDENLY

HER THREE DAYS' ILLNESS
PROVED FATAL.

Cold Which Manifested Itself Saturday
Turned to Pneumonia, and the End
Came Early This Morning—Three
Children Survive—Large Property
To Be Divided.

Death came to Mrs. George C. McLean very suddenly early this morning. The sad news was a surprise to all acquaintances of the family. Few were aware of her illness until it was announced in the Gazette last evening. She was taken with a severe cold last Saturday and later in the day a physician was called. The illness quickly developed into pneumonia and she rapidly grew worse, until the end came this morning.

Nancy A. Dodge (that being her maiden name) was born August 26, 1825. She had been married twice, her first husband being the late James Van Etta. About four years ago she was married to George C. McLean, and soon after made a tour of Europe, being absent a year or more. Besides her husband, three children by her first husband survive, they being Mrs. Alice Smith, of this city, Mrs. Elizabeth Biglow, of Chicago, and George Van Etta, of Milton. The children were all present when the mother expired. The funeral will take place at 2 o'clock Thursday afternoon.

Mrs. McLean's first husband left an estate, the estimated value of which is about three hundred thousand dollars. Much of this is in Chicago business property producing an income of \$18,000 from rentals. George C. McLean was appointed trustee of the property with the widow, and has had the management since Mr. Van Etta's death. It is not yet known whether or not Mrs. McLean left a will.

William Jeffris.

At his home in the town of Rock, this morning at 2 o'clock, William Jeffris, brother of David Jeffris of this city, passed beyond this earthly life. About ten days ago he suffered a stroke of paralysis from which he finally grew weaker until the final summons. He was born near Litchfield, Greyson county, Kentucky, August 28, 1825, and came first to Janesville in 1846, residing for the greater part of the time upon his farm with the exception of a few years in this city. In 1857 he was united in marriage with Miss Mary Spoon. Three children were born to them, the two daughters having passed to the other shore some years ago. David B., the son, is in business in Huron, South Dakota, and was at the bedside of his father when he passed away. To the relatives, there is the consolation that their dear one died trusting in his Saviour. The funeral will be held Thursday afternoon at the Grove church in the town of Center.

Funeral of Mrs. Byron Inman.

Walter John Berry.

Funeral of W. F. Randall.

PASTORAL WILL BE READ NEXT SUNDAY

JANESVILLE PRIESTS HAVE
THE PYTHIAN DECREE.

Edict Against Secret Societies to Be
Announced In St. Mary's and St. Patrick's Churches—Archbishop
Katzner Leaves For Rome February 2.

In both St. Patrick's and St. Mary's church the decree against the Knights of Pythias and kindred secret societies will be read next Sunday. Copies of the decree have been just received by Dean McGinnity and Father Roche. The decree accompanied by a pastoral from the archbishop calling attention to its admonitions. The pastoral will also make announcement of Archbishop Katzner's journey to Rome and of the appointment of an administrator for the diocese. Who this will be has not been announced, but many indications point to Father Abbelen, although the name of Father Rainer of St. Francis Seminary has been mentioned in connection with the office.

Archbishop Katzner accompanied by Mgr. Zeininger, Father Ruckengruber, Father Friedl of Jefferson and Father Hodnett of Chicago will sail for Naples on the steamship Werra on Feb. 2. After securing an audience with the Holy Father at Rome, the party will proceed to the Holy Land, and will also visit upper Austria, the native place of Archbishop Katzner, before their return, which will probably be in June of the present year.

In reference to the newspaper story that he would not return to this country, but would be assigned to a see in Germany, Archbishop Katzner regards it as such a palpable "fake" as not to need denial. Said Mgr. Zeininger in speaking of it "The story is so false that it needs no refutation. It is sufficient to say that the first archbishop or myself heard of the matter was through the newspapers."

POWER OF THE PRESS.

Pittsburg Preacher Calls it a Gibraltar of Power.

PITTSBURG, Jan. 22.—The Rev. J. H. Craig, pastor of the Shady Avenue Christian church, Allegheny, preached yesterday on "The Power of the Daily Newspaper." In the course of his remarks the Rev. Craig said:

"Malign it, criticize it, tear it to pieces as you may, it is a Gibraltar of power in our national domain. For an illustration of this look for one moment at the Associated and United Press, composed of the greatest papers of the country dealing every day with facts and figures, culled from the four quarters of the globe on almost every living subject, from courts of justice, commercial circles, railroad circles, from the streets, boards of trade, books, commission houses, stage. Into its columns the artist, scientist, author, artisan, statesman and minister of the gospel. Such combined intelligence and knowledge would move world if properly utilized."

SHOT BY RENEGADES.

Two American Railway Builders are
Murdered in Mexico.

CITY OF MEXICO, Jan. 22.—Report comes from Tehuantepec that Col. Dunn and Thomas Murphy have been murdered in Guatemala while en route for the line of the Guatemala Northern railway, whither they were taken 100 miles, purchased in this republic to work on the construction of that railroad.

There is little doubt the outrage was committed by renegades along the border for the purpose of getting better mounts for use in the threatened conflict between Mexico and Guatemala. The murdered men were Americans, formerly connected with the Tehuantepec Railway Construction company. An investigation will be demanded by the Americans in Mexico and Guatemala.

VERY COLD DAY FOR ELEVEN RATS

Impromptu Mass on the Street This Forenoon Despite Wintery Breezes.

There was a "free-for-all" ratting main on South Main street this morning. W. T. Vankirk set a new trap in his grocery store last evening and caught eleven big rats. George Brown's terrier was called this morning and the rats were turned out. The dog was just a minute and a half in killing the eleven rats, and shook up the trap for more. A crowd stood in the zero blasts and watched the slaughter.

DAMAGES SOUGHT BY THREE WIDOWS

FIFTH WARD SCHOOL CASE
ARGUED TOMORROW.

Claim Made By the Plaintiffs' Attorneys Is That the Suit Was Begun After the Period of Limitation Expired—Demurrer Has Been Put On Record.

Judge Bennett will hear arguments tomorrow upon the Shearer damage suit. The action is that brought by the Flaherty, Hagney and Benwitz heirs, for damages because of the killing of the three workmen when the Fifth ward school fell in. Shearer's attorneys, Sutherland & Nolan, have demurred to the suit on the ground that it was not begun until more than two years after the accident and was therefore beyond the period of limitation. This point is covered in the complaint by the assertion that action was deferred because of promises of a \$1,000 subscription for each of the three families. Promises of this money were held out from day to day until the two years were out, it is declared and in this way action was averted. The attorneys for the defendant will answer this objection in their arguments tomorrow.

An Uncomfortable Howdah.

The elephant's howdah is that bed of Procrustes, in which one can neither sit nor stand with any approach to reasonable ease, and in which a recumbent position is impossible. Its advantages are: First, that standing in it, a man can shoot on every side of him; second, that it is convenient for the carriage of the occupant's paraphernalia—his guns on racks on either side, his ammunition in a trough in front, his other requisites in leather pockets here and there on the sides of the machine, or, as to that bee blanket, on his seat, and, third, that in the hinder compartment an attendant can sit or stand to hold that monstrous umbrella over his head, or, when quick loading is required, take from his hand the gun just fired and recharge it. Those are the advantages; otherwise the howdah is an abomination.—Blackwood's Magazine.

Souvenirs in Bulk.

Occasionally it is possible to satisfy the souvenir seekers without doing any damage in particular. This is the case at the tomb of George Washington, in Mount Vernon. A lady had just picked up a pebble from the walk in front of the venerated spot to carry home with her, when a workman came up with a wheelbarrow full of gravel, which he dumped on the spot. "Have you—have you fixed up the place that way recently?" the lady asked in a slightly apprehensive tone. "Bless you, miss," was the reply. "We has to do this about every two weeks so's the tourists can have something to carry away for mementos."

Spontaneous Combustion in Hay.

M. Berthelot has been investigating the causes of the spontaneous ignition of hay in stacks, and he finds that the hay kept in a stove at a temperature of 140 degrees Celsius will take fire of its own accord, and that on the whole hay in a stack or loft heats by reason of chemical changes which take place in it. It is only, however, after the hay has been altered by fermentation that these changes take place.

Some of Trinity's Activities.

Trinity parish, New York, is served by a small army of organists, singers, acolytes, and other semi-eccelesiastical adjuncts to worship. There are twelve organists and assistants, and more than 300 persons are employed in the choir or as acolytes, servers, and crucifers. Besides these the parish employs nearly forty teachers in its daily schools, a score of sextons, and nearly a dozen doctors.

Warning to Expectant MOTHERS.
 Many internal remedies are being skillfully and gingerly advertised, professing to Shorten Labor, Lessen Pains of Child-birth, etc., and with wonderful inconsistency to regulate menstruation. Common sense should teach any woman that a preparation adapted for MENSTRUAL DISORDERS will not prepare the system for Child-birth; on the contrary, internal remedies at this time imperil her life. We earnestly say beware of all such; they cannot, at this critical period, do any possible good, and their use may prove fatal. It is only by persistent EXTERNAL treatment while enacting, thus relaxing and softening all the parts, that the hour of Child-birth is robbed of its terror, and no remedy on earth does this but "MOTHER'S FRIEND." MANY PEOPLE HEAR THE BROOLYN DIVINE

TALMAGE PREACHES AT THE
ACADEMY OF MUSIC.

"They Shall Come From the East, and
From the West, and From the North,
and From the South, and Shall Sit
Down"—Luke 13:29.

R. TALMAGE'S FIRST sermon at the Academy of Music, New York, Sunday was heard by a great throng. He will hereafter preach there on Sundays. The text of the sermon is printed in the heading. "The man who wrote this was at the time a practicing physician; at another time a talented painter; at another time a powerful preacher; at another time a reporter—an inspired reporter. God bless, and help, and inspire all reporters! From their pen drops the health or poison of nations. The name of this reporter was Lucanus; for short he was called Luke; and in my text, although stenography had not yet been born, he reports verbatim a sermon of Christ which in one paragraph bowls the round world into the light of the millennium. They shall come from the east, and from the west, and from the north, and from the south and shall sit down. Nothing more interested me in my recent journey around the world than to see the ship captain about noon, whether on the Pacific, or the Indian, or Bengal, or Mediterranean, or Red Sea, looking through a nautical instrument to find just where we were sailing; and it is well to know that though the captain tells you there are thirty-two points of division of the compass card in the mariner's compass, there are only four cardinal points, and my text hails them, the north, the south, the east, the west. So I spread out before us the map of the world to see the extent of the gospel campaign. The hardest part of the field to be taken is the north, because our gospel is an emotional gospel, and the nations of the far north are a cold blooded race. They dwell amid icebergs and eternal snows, and everlasting winter. Greenlanders, Laplanders, Icelanders, Siberians—their vehicle is the sledge drawn by reindeer. Their existence a lifetime battle with the cold. The winter charges upon them with swords of icicle, and strikes them with bullets of hail and pounds them with battering of rams of glacier.

But already the huts of the Arctic hear the songs of divine worship. Already the snows fall on open New Testaments. Already the warmth of the sun of righteousness begins to be felt through the minds, and souls of the Hyperboreans. Down from Nova Zembla; down from Spitzbergen seas; down from the land of the midnight sun; down from the palaces of crystal; down over realms of ice, and over dominions of snow, and through hurricanes of sleet, Christ's disciples are coming from the north. The inhabitants of Hudson's bay are gathering to the cross. The church missionary society in those polar climes has been grandly successful in establishing twenty-four gospel stations, and over twelve thousand natives have been baptised. The Moravians have kindled the light of the gospel all up and down Labrador. The Danish mission has gathered disciples from among the shivering inhabitants of Greenland. William Duncan preaches the gospel up in the chill latitudes of Columbia, delivering one sermon nine times in the same day to as many different tribes who listen, and then go forth to build school houses and churches. Alaska, called at its annexation William H. Seward's folly, turns out to be William H. Seward's triumph, and it is hearing the voice of God through the American missionaries, men and women as defiant to Arctic hardships as the old Scottish chief who, when camping out in a winter's night knocked from under his son's head a pillow of snow, saying that such indulgence in luxury would weaken and disgrace the clan. The Jeanette went down in latitude 77, while De Long and his freezing and dying men stood watching it from the crumbling and crackling polar peak; but the old ship of the gospel sails as unhurt in latitude 77 as in our own 40 degrees, and the one starred flag floats above the top gallants in Laffin's bay, and Hudson strait, and Melville sound. The heroism of polar expedition, which has made the names of Sebastian Cabot, and Scoresby, and Schwatka, and Henry Hudson immortal, is to be eclipsed by the prowess of the men or women who amid the frosts of highest latitudes are this moment taking the upper shores of Europe, Asia and America for God. Scientists have been able to agree as to what is the Aurora Borealis, or northern lights. I can tell them. It is the banner of victory for Christ spread out in the northern night heavens. Partially fulfilled already the prophecy of my text, to be completely fulfilled in the near future: "They shall come from the north."

But my text takes in the opposite point of the compass. The far south has through high temperature temptations to lethargy and indolence, and hot blood which tend toward multi-form evil. We have through my text got the north in, notwithstanding its frosts, and the same text brings in the south, notwithstanding its torridity. The fields of cactus, the orange groves, and the thickets of magnolia are to be surrendered to the Almighty. The south! That means Mexico, and all the regions that William H. Prescott and Lord Kingsborough made familiar in literature: Mexico in strange dialect of the Aztecs; Mexico conquered by

Herman Cortes, to be more gloriously conquered; Mexico with its capital more than 7,000 feet above the sea level, looking down upon the entrancement of lake and valley and plain; Mexico, the home of nations yet to be born—all for Christ. The south! That means Africa, which David Livingstone consecrated to God when he died on his knees in his tent of exploration. Already about 750,000 converts to Christianity in Africa. The south! That means all the islands strewn by Omnipotent hand through tropical seas. Malayan, Polynesia, Melanesia, Micronesia, and other islands more numerous than you can imagine unless you have voyaged around the world. The south! That means Java for God; Sumatra for God; Borneo for God; Siam for God.

A ship was wrecked near one of these islands and two life boats put out for shore, but those who arrived in the first boat were clubbed to death by the cannibals, and the other boat put back and was somehow saved. Years passed on, and one of that very crew was wrecked again with others on the same rocks. Crawling up on the shore they proposed to hide from the cannibals in one of the caverns, but mounting the rocks they saw a church, and cried out: "We are saved! A church! A church!" The south! That means Venezuela, New Granada, Ecuador and Bolivia. The south! That means the torrid zone, with all its bloom, and all its fruitage, and all its exuberance; the redolence of illimitable gardens; the music of boundless groves; the lands, the seas, that night by night look up to the southern cross, which in stars transfigures the midnight heaven as you look up at it all the way from the Sandwich islands to Australia. "They shall come from the south."

But I must not forget that my text takes in another point of the compass. It takes in the east. I have to report that in a journey around the world there is nothing so much impresses one as the fact that the missionaries divinely blessed are taking the world for God. The horrible war between Japan and China will leave the last wall of opposition flat in the dust. War is barbarism always and everywhere. We hold up our hands in amazement at the massacre at Port Arthur, as though Christian nations could never go into such diabolism. We forgot Fort Pillow! We forgot the fact that during our war both north and south rejoiced when there were 10,000 more wounded and slain on the opposite side. War, whether in China or the United States, is hell let loose. But one good result will come from the Japanese-Chinese conflict. Those regions will be more open to civilization and Christianity than ever before. When Missionary Carey put before an assembly of ministers at Northampton, England, his project for the evangelization of India, they laughed him out of the house. From Calcutta on the east of India to Bombay on the west, there is not a neighborhood but directly or indirectly feels the gospel power. The Jagger-naut, which did its awful work for centuries, a few weeks ago was brought out from the place where it has for years been kept under shed as a curiosity, and there was no one reverentially to greet it. About three million of Christian souls in India are the advance guard that will lead on the two hundred and fifty million. The Christians of Amoy and Peking and Canton are the advance guard that will lead the three hundred and forty million of China. "They shall come from the east." The last mosque of Mohammedanism will be turned into a Christian church. The last Buddhist temple will become a fortress of light. The last idol of Hindooism will be pitched into the fire. The Christ who came from the east will yet bring all the east with him. Of course, there are high obstacles to be overcome, and great ordeals must be passed through before the consummation: as witness the Armenians under the butchery of the Turk. May that throne on the banks of the Bosphorus soon crumble! The time has already come when the United States government and Great Britain, and Germany ought to intone the indignation of all civilized nations. While it is not requisite that arms be sent there to avenge the wholesale massacre of Armenians, it is requisite that by cable under the seas and by protest that shall thrill the wires from Washington, and London, and Berlin to Constantinople, the nations anathematize the diabolism for which the sultan of Turkey is responsible. Mohammedanism is a curse whether in Turkey or New York! "They shall come from the east!" And they will come at the call of the loveliest, and grandest, and best men and women of all the time. I mean the missionaries. Dissolute Americans and Englishmen who have gone to Calcutta, and Bombay, and Canton to make their fortunes, defame the missionaries because the holy lives and the pure households of those missionaries are a constant rebuke to the American and English libertines stopping there, but the men and women of God there stationed go on gloriously with their work; people just as good and self-denying as was Missionary Moffat, who when asked to write in an album, wrote these words: My album is in savage breasts Where passion reigns and darkness rests Without one ray of light. To write the name of Jesus there; To point to words both bright and fair; And see the pagan bow in prayer, Is all my soul's delight.

In all these regions are men and women with the consecration of Melville B. Cox, who embarking for the missionary work in Africa, said to a fellow student: "If I die in Africa, come and write my epitaph." "What shall I write for your epitaph?" said the student. "Write," said he, "these words: Let a thousand fall before Africa be given up."

There is another point of the compass that my text includes. "They shall come from the west." That

means America redeemed. Everything between Atlantic and Pacific, Oceans to be brought within the circle of holiness and rapture. Will it be done by worldly reform, or evangelism? Will it be law, or gospel? I am glad that a wave of reform has swept across this land, and all the cities are feeling the advantages of the mighty movement. Let the good work go on until the last municipal evil is extirpated. About fifteen years ago the distinguished editor of a New York daily newspaper said to me in his editorial room, "You ministers talk about evils of which you know nothing. Why don't you go with the officers of the law and explore for yourself, so that when you preach against sin you can speak from what you have seen with your own eyes?" I said "I will." And in company with a commissioner of police, and a captain of police, and two elders of my church, I explored the dens and hiding places of all styles of crime in New York, and preached a series of sermons warning young men, and setting forth the work that must be done lest the judgment of God overwhelm this city with more awful submergence than the volcanic deluge that buried Herculaneum and Pompeii. I received, as nearly as I can remember, several hundred columns of newspaper abuse for undertaking that exploration. Editorials of denunciation, double headed, and with captions in great primer type, entitled "The Fall of Talmage," or "Talmage Makes the Mistake of His Life," or "Down with Talmage," but I still live, and am in full sympathy with all movements for municipal purification. But a movement which ends with crime exposed and law executed stops half way. Nay, it stops long before it gets half way. The law never yet saved anybody; never yet changed anybody. Break up all the houses of iniquity in this city, and you only send the occupants to other cities. Break down all the policemen in New York, and while it changes their worldly fortunes, it does not change their heart or life. The greatest want in New York to-day is the transforming power of the gospel of Jesus Christ to change the heart and life, and uplift the tone of the moral sentiment, and make men do right, not because they are afraid of Ludlow Street jail or Sing Sing, but because they love God and hate unrighteousness. I have never heard, nor have you heard, of anything except the gospel that proposes to regenerate the heart, and by the influence of that regenerated heart, rectify the life. Execute the law most certainly; but preach the gospel, by all means—in churches, in theaters, in homes, in prisons, on land and on the sea. The gospel is the only power that can revolutionize society and save the world. All else is half and half work, and will not last. In New York it has allowed men who got by police bribery their thousands, and tens of thousands, and perhaps hundreds of thousands of dollars to go scot free; while some who were merely the cat's paw and agents of bribery are struck with the lightning of the law. It reminds me of a scene in Philadelphia when I was living there. A poor woman had been arrested and tried and imprisoned for selling molasses candy on Sunday. Other law breakers had been allowed to go undisturbed, and the grog shops were open on the Lord's day, and the law with its hands behind its back walked up and down the streets declining to molest many of the offenders; but we all rose up in our righteous indignation, and calling upon all powers, visible and invisible, to help us, we declared that though the heavens fell no woman should be allowed to sell molasses candy on Sunday.

There is that mother who through all the years of infancy and childhood was kept running amid sick trundle beds, now to shake up the pillow for that flaxen head, and now to give a drink to those parched lips, and now to hush the frightened dream of a little one; and when there was one less of the children because the great lover of children had lifted one out of the croup into the easy breathing of celestial atmosphere, the mother putting all the more anxious care on those who were left; so weary of arm, and foot, and back, and head, so often crying out, "I am so tired! I am so tired!" Her work done, she shall sit down. And that business man for thirty, forty, fifty years has kept on the run, not urged by selfishness, but for the purpose of achieving a livelihood for the household. On the run from store to store, or from factory to factory; meeting this loss, and discovering that inaccuracy, and suffering betrayal or disappointment; never more to be cheated or perplexed, or exasperated, he shall sit down. Not in a great arm chair of heaven, for the rockers of such a chair would imply one's need of soothing, of clinging to easy posture, or semi-individualism; but a throne, solid as eternity and radiant as the morning after a night of storm. "They shall sit down."

Frederick the Great, notwithstanding the mighty dominions over which he reigned, was so depressed at times he could not speak without crying, and carried a small bottle of quick poison with which to end his misery, when he could stand it no longer. But I give you this small vial of gospel anodyne, one drop of which, not hurting body or soul, ought to smooth all unrest, and put your pulses into an eternal calm. "They shall come from the east, and from the west, and from the north, and the south, and shall sit down."

A Delicate Point. Magistrate—You are charged with hugging and kissing women against their will. Prisoner—I was so drunk, your honor, that I couldn't tell a pretty woman from an ugly one. "That is no excuse." "No, but it explains why they objected."—New York Weekly.

A VETERAN'S VERDICT.

The War is Over. A Well-known Soldier, Correspondent and Journalist Makes a Disclosure.

Indiana contributed her thousands of brave soldiers to the war, and no state bears a better record in that respect than it does. In literature it is rapidly acquiring an enviable place. In war and literature Solomon Yewell, well known as a writer as "Sol," has won an honorable position. During the late war he was a member of Co. M, 2d N. Y. Cavalry and of the 13th Indiana Infantry Volunteers. Regarding an important circumstance he writes as follows: "Several of us old veterans here are using Dr. Miles' Restorative Nervine, Heart Cure and Nerve and Liver Pills, all of them giving splendid satisfaction. In fact, we have never used remedies that compare with them. Of the Pills we must say they are the best combination of the qualities required in a preparation of their nature we have ever known. We have none but words of praise for them. They are the outgrowth of a new principle in medicine, and tone up the system wonderfully. We say to all, try these remedies."—Solomon Yewell, Marion, Ind., Dec. 5, 1892. These remedies are sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles \$5, express prepaid. They positively contain neither opiates nor dangerous drugs.
